

REGULATION FOR ADMISSION TO INFANT SCHOOL

(approved with last modified by the School Administration Board with acts n. 31 - 11/11/2024)

ART. 1 - SUBMISSION OF THE APPLICATION

To access to one of the three municipal pre-school and one of the two statal pre-school on the basis of which is structured the territory of the Municipality of Correggio, the family of the boy / girl who turns three in the current year (or any "anticipatory" as defined by law) must submit a unique application, valid for the duration of the period spent at the pre-school, within the time limits are given annually by Isecs according to the Comprehensive School Correggio 2 and on the basis of ministry guidelines (approximately between January and February).

Isecs and Comprehensive School Correggio 2, which has the ownership to the public pre-schools on the area of Correggio, will inform, also on their institutional sites with specific material, the families concerned.

The application form must be completed in paper form and submitted within the deadlines and in accordance with the procedures defined each year.

The figures declared shall be met, unless otherwise provided regulations, at the time of submission of the application.

If a child/s is withdrawn from the service, they will not be able to re-apply for the same school year, except on formal notice from the Social Services.

ART. 2- APPLICATIONS AFTER THE DEADLINE

Applications received from the day following the expiry of the deadline will be placed chronologically in bottom of the list of the excluded, regardless of the territory of belonging, and will be considered if there is availability, only after having exhausted the applications received in terms.

ART. 3- APPLICATIONS FROM NON-RESIDENTS

Requests for children residing outside the municipal district of Correggio are placed at the bottom of the list and can be considered only when the requests, within or outside the deadlines, have been satisfied for children residing in Correggio on 30/06.

If a child obtains residence after the deadline, it is possible to re-apply as a resident, valid from the time of submission.

ART. 4- RANKING OF THE PARTECIPANTS AND ENTRIES

Each infant school has a public area of jurisdiction, described in a later part of the Rules, that for the two municipal school Ghidoni is itself divided, for historical reasons and practices of proximity, in a first area of belonging and one of the alternative.

With applications received in terms, we forms a ranking for each preschool, formed by the questions of those who reside in the territory of belonging to each school. In their applications, each family can also possibly express only one preference for a school other than their territory of residence.

The ranking is made on the basis of the scores given by family circumstances indicated below.

For the acceptance of applications, we proceed in stages.

Stage 1:

Attributed the seats, school by school, to those who by regulation the maximum score as absolute priorities, set out in point 1 of the item scores: disabled, families in serious difficulty and disability of 100%.

If in a single school occurred a concentration of requests that could have consequences on the well-being of children and on the educational activities, It can be possible, with the families agreement, a different choice, always within the different municipal and public administrations.

Stage 2:

Places are allotted to requests by residents in the district to which each school belongs, classified on a points system according to family situation.

Stage 3:

Define the rankings of individual schools and absolute precedence to score, we examine the questions of those who have expressed a preference for a school other than the territory, and is formed, with these questions, a single ranking list ordered by score (ranking for preference). Those wishing to remain assigned to the school territory not need to report any preference.

The preference for other school is active, however, only for those who have got the place in the school territory. The free seats or that are released as a result of the movements that are made from one school to another are assigned first to those who are on the list waiting for territory and, exhausted this, to those who are on the list for preference. For this assignment order it is based on the score and the school is assigned only one chosen.

If a school places remain available, out of the list of territory or preference, these places will be offered, in order to score, to the excluded other territories.

Acceptance is always voluntary.

At the end of these steps, the provisional ranking lists by territory will be published by the ISECS Director, from which the deadline for submitting any appeals and counterclaims will start.

If there are still vacancies in one or more schools, within 30 days of the publication of the provisional ranking by territory, in order to respect the time necessary for the organization of services, the families of the children enrolled, may apply for transfer from the school of assignment to another school with available places.

The examination of precedence over any vacant places will follow the score attributed to the family status, but not taking into account that linked to the territory (point 2.8).

These applications can be accepted only if this does not involve changes to the initial training offer resulting from the provisional ranking by territory, thus eliminating the activation of sections.

Only by respecting the same condition as above, after hearing the families, they will also be able to act on the places that become free following the acceptance of transfer applications, subsequent entries in the territorial ranking or moves on the basis of preferences previously expressed by families.

The examination of precedence over the places freed by transfers will follow the score attributed to the family condition but without considering that linked to the territory (point 2.8).

Once these steps have been taken, the ranking by territory becomes final with subsequent publication.

Stage 4:

At the end of the procedure Publication of the definitive lists, It will be built a single ranking list of all those who may not yet found a place in public preschools (list of the excluded).

The ranking is formed on the based on the score given by the traditional family and the places that are going to release, due to retirement or other, they will be awarded by scrolling the list, regardless of the territory and the preference expressed.

In compiling this list does not only take into consideration the points referred to in 2.8 "Residence and territory" of successive scores. Any assignment to a school other than the territory, carried out at any stage, will remain provisional until the beginning of the school year, to allow residents in case of withdrawals take place in the school territory, to be inserted therein

With the start of the school year (approximately 1/9 for the municipal and the 15/9 for the statal) the allocation of places will eventually freed only for children not included in any school or schools autonomous.

The ranking are based on the following scores:

ART. 7 – INSERTION OF 4 AND 5 YEARS-OLD CHILDREN

For applications for the placement of four- and five-year-olds in the following school year, if places are available, priority is given to applications received within the deadlines set for enrolment in three-year sections. After June 30, we will form two separate rankings for children of four and five years. These lists will be compiled based on the following modalities.

In the first instance, in chronological order of presentation of the request, the applications of the children already attending a public school, who have applied for transfer, following justified reasons:

- 1) changing family conditions and / or health (possibly related to grandparents);
- 2) changing working conditions;

In the second instance applications for enrollment of children not included in any school and, following, instance applications for enrollment of children included in non-public schools.

Applications received after the deadline for registration will be considered in chronological order in the queue to the rankings drawn up after 30/6, applying for children attending public schools the same justified reasons as above.

In case of vacancies in several schools, the territorial residence will be considered for the assignment first then any requests from the family.

For places that, during the year, will be freed as a result of withdrawals, it will not be taken into account the demands of families whose children already attend public schools.

Only for the statal pre-school Collodi of Fosdondo, in which there are more easily sections for children mixed, also because of the greater number of sections present, applications made in terms of territory from users that require the frequency of the sections other than the 3 years, they may take precedence in receiving enrollment than age children, also for educational reasons, based on the indicated by the Comprehensive School Correggio 2.

ART. 8 - "ANTICIPATORY" CHILDREN

If it is decided to accommodate children/and cd. "anticipatory" this can only happen in the following fractional schools: municipal Arcobaleno and state Collodi, which are already organized with sections of age not homogeneous and have been affected more by the general decline in births and registrations.

For each structure can be accepted a maximum of n. 10 children/ e, not already inserted in the nest. The stay for 4 school years at the kindergarten will be guaranteed, as the children are still in school age, or, on request of the family, you can continue the school course as an "advance" also to primary schools, After the three-year period of attendance to childhood.

Applications from "anticipatory" children must be received within the deadlines for enrolment in pre-school; any applications received after the deadline may be accepted, following those in the only if received by the start date of registration for children's nurseries.

It will not be possible to accept the registration of "anticipatory" children who have applied for a pre-school place.
